

CHARTER OF RIGHTS

THE WASTE LAND

3° WORLD FORUM OF LOCAL ECONOMIC DEVELOPMENT

TORINO ITALY 2015
13 - 16 OCTOBER

**The charter
establishes as its
primary goal:**

**Recognize the activity of
waste collector as a work
and conduct it to the
norms and different legal
systems that regulate it
in different countries.**

1. The public recognition of the economic, social and environmental value of the work of waste collectors;
2. The obligation of public administrations and companies of any type that manage services in the waste processing sector, of establishing formal and correct relationships based on legal criteria foreseen for any commercial activity;
3. The commitment from the part of recyclers to set organizational structures legally recognized that add value to the original dimension of public good and respect equality of rights and obligations among associated workers;
4. Recognize the organizations of recyclers as ideal subjects that can participate in public tenders in the waste processing sector and environmental services, based on the experiences and competencies acquired;
5. Recognize the recycling activity as a service of public utility and its important integrative function of environmental and social policies;
6. Promote the participation of organizations of waste recyclers in the phases of consulting, planning and implementation of decisions and in the definition of policies in the area of waste management and environmental policies.
